

## AIRHAWK Motorcycle Seat Cushion Fit Chart

### AIRHAWK Motorcycle Seat Cushion Fit Chart

**This is not a complete list.** If your bike is not listed, or no cushion is suggested, we still make a cushion for your bike! Use the dimensions below and compare to your seat to find the best fit.

Remember, the seat cushion does not need to fit the seat *exactly* to be effective, as long as the cushion is large enough to cover the area where your rear and the seat meet.

AIRHAWK Medium Cruiser - 14" deep x 14" wide (This is *by far* the most common fit)

AIRHAWK Large Cruiser - 18" deep x 14" wide (Exactly the same as Medium Cruiser, with an extra set of cells in the front between your legs)

AIRHAWK Small Cruiser - 18" deep x 12" wide (Fits most sport and street bikes)

AIRHAWK Large Cruiser Pillion - 14" deep x 11" wide (Large passenger seats and some ATVs)

AIRHAWK Cruiser Pillion - 11" deep x 9" wide (Small passenger seats)

F = Front (Cushion for Driver)

R = Rear (Cushion for Passenger)
